

**The 8<sup>th</sup> International Conference UKRCEMFOR 2019. Cement industry. Best Practices. Prospects for Development will be held on May 28-29, 2019 in Kyiv**

Kyiv, Ukraine

**The 8<sup>th</sup> International Conference UKRCEMFOR 2019. Cement industry. Best Practices. Prospects for Development with a focus on highlighting the important aspects of cement industry will take place on May 28-29, 2019 in the Champions Hall of the Olimpiyskiy NSC in Kyiv. Conference Organizer: UKRCEMENT Association of Cement Producers of Ukraine. Partners: Ivano-Frankivskcement, CRH, Dyckerhoff-Buzzi, Heidelberg, Eurocement, ArtBudService, DALGAKIRAN COMPRESSOR UKRAINE, FLSmidth and industrial construction group KOVALSKA.**

Conference is the largest cement industry event in Ukraine which biennially brings together about 300 high-ranking delegates of companies and organizations from more than 10 countries.

Cement industry remains a solid, stable and growing part of the national economy. Represented by 4 large international groups - **CRH, Dyckerhoff-Buzzi, Heidelberg, Eurocement**, and a strong **Ukrainian company Ivano-Frankivskcement**, the local cement industry is well balanced and grows sustainably for the third consecutive year.

**UKRCEMFOR 2019** for the 8th time will become a unique communication platform with owners and managers of all cement companies of Ukraine, cement consumers, manufacturers of concrete and concrete mixtures, manufacturers of impurities in concrete, construction companies, trading companies, manufacturers of equipment for cement production, suppliers of services and materials, scientists, Ukrainian and international experts in the fields of economy, ecology, technology and quality, banks and funds investing in cement industry and construction, public sector.

**Topics for discussion during the Conference:**

- Current state and development trends of the cement industry: technology, equipment, and logistics
- Energy efficiency and ecology. Alternative fuels
- Cement-concrete technology and equipment in highways construction
- Standards and regulations in cement industry
- Quality and safety of construction materials
- Concrete, concrete products and equipment. City architecture and urban spaces

These and other topics to be discussed at the UKRCEMFOR 2019 between a solid body of delegates from within the industry, and panels of Ukrainian and international experts in economy, ecology, technologies and quality, as well as banking and finance.

Among the companies that have already confirmed their participation are: Thyssenkrupp Industrial Solutions AG, MC Bauchemie Ukraine, AUMUND Fördertechnik GmbH, GEOCON GmbH & Co. KG, Compressors International LLC, Schenck Process Ukraine, Schenck UK, Promtekhservis Ltd., Dalgakiran compressor Ukraine, Refratechnik Cement GmbH, IZOMAR-POLREF and others.
