International Exhibition of equipment and technologies for waste collection and recycling

8-9 October
Kyiv, Ukraine, ACCO International

The meeting of professionals in the field of waste collection and recycling
EXHIBITION PLAN AND PARTICIPATION OPTIONS

COST

- Stand 6 sq.m - 1 300 Euro
- Stand 9 sq.m - 1 800 Euro
- Stand 12 sq.m - 2 300 Euro
- Stand 15 sq.m - 2 700 Euro
- Stand 18 sq.m - 3 100 Euro
- Stand 36 sq.m - 5 500 Euro

UNequipped space of 36 sq.m - 4 700 Euro
UNequipped space of 18 sq.m - 2 600 Euro

COST INCLUDES

- equipped stand* (company name on frieze, table, chairs, electric outlet, hanger, trash can, spot lamp, wall panels, carpet)**
- installation of machinery / equipment outside (from 9 sq.m, optional)**
- presentation in the Business Program (10-20 min, from 9 sq.m)**
- own open seminar / master class within Business Program (30-60 min, from 12 sq.m)**
- advertising A4 unit in the catalog (from 9 sq.m)**
- rotation of advertising video in the exhibition hall (from 15 sq.m)
- logo & information about the company on exhibition website & in catalog
- invitations to buffet
- exhibition documentation
- all taxes

* Except unequipped area
** Duration of the presentation, seminar, size of the adv. unit and equipment of the stand differs depending on selected option. Please, contact organizers for detailed information

Visiting is free of charge, preliminary registration on wm-expo.com website is required
PRELIMINARY PROGRAM

8 OCTOBER, TUESDAY

MAIN PROGRAM

Conference room, 1 floor

Discussion will be attended by representatives of:

• Ministry of Regional Development, Construction, Housing and Communal Services of Ukraine
• Ministry of Ecology and Natural Resources of Ukraine
• Ministry of Economic Development and Trade of Ukraine
• Ministry of Energy and Coal Industry of Ukraine
• Ministry of Agrarian Policy and Food of Ukraine
• Ministry of Defense of Ukraine
• Ministry of Health of Ukraine
• State Ecological Inspection of Ukraine
• The State Service of Ukraine on Food Safety and Consumer Protection
• Regional State Administrations
• Large industrial holdings

Session 1. Modern equipment and machinery for separate collection and handling of waste

Session 2. Waste sorting and recycling

PARALLEL EVENTS

CONFERENCE

“INDUSTRIAL WASTE RECYCLING”

Zone of parallel events, 2 floor

Conference topics:

• problems of industrial waste recycling
• financial mechanism of state support of environmental projects of enterprises
• necessary legislative reforms in the field of industrial waste handling
• mechanism of state and public control of environmental activities in the field of industrial waste management
• modern technologies and equipment for industrial waste treatment

Session-discussion 1. Mining & metallurgical and fuel & energy sectors

Issues:

• The share of MMC and FEC waste in the structure of all waste in Ukraine is dominant and grows constantly. Unfortunately, there are still no examples of a system solution of this problem by enterprises
• Recycling of MMC and FEC waste can be a powerful resource for the development of the road and construction industry
• The government does not take stimulating measures and uses only punitive apparatus
• Enterprises don’t make considerable investments in solving this problem despite availability of proven industrial waste recycling technologies

Topics to be discussed:

› How the stimulation of MMC and FEC enterprises to invest in waste reduction and recycling should be done - by increasing fines, redistributing the environmental tax, or allocating preferential government loans?
› What should be the role of local authorities in solving environmental problems of industry? Can it become a partner, not an opponent?
› What is the main reason for the lack of noticeable results in solving of industrial waste problem: lack of sufficient profitability of enterprises, lack of government policy or passivity of local authorities and the public?

Invited for participation:

- industrial enterprises of MMC and FEC from Ukraine, CIS countries and Eastern Europe
- Representatives of the Ministry of Energy and Coal Industry of Ukraine, the Ministry of Economic Development and Trade of Ukraine
- Representatives of Ecology Departments of Dnipropetrovsk, Donetsk, Zaporizhia, Poltava Regional State Administrations
- Representatives of Ecology Departments of Dnipro, Zaporizhia, Krivyi Rih, Mariupol, Horishni Plavni, Kamyanske cities
- international and domestic suppliers of equipment and technologies for industrial waste recycling
Session 2. Development prospects of ferrous and nonferrous scrap metal market

Supported by: Ukrainian Scrap Metal and Resources Association

Topics:
- government regulation of the scrap market
- market conditions
- modern technologies and equipment for collection and processing of ferrous and non-ferrous scrap metal

Invited for participation: representatives of metallurgical enterprises, enterprises for procurement and processing of ferrous and non-ferrous scrap metals, suppliers of equipment for collection and processing of ferrous and non-ferrous scrap metals

Session 3. Agricultural, food industry and animal waste management

Topics:
- potential use of crop waste
- potential use of livestock waste
- state policy in the field of environmental protection: EIA law, veterinary and sanitary standards, programs of state support of agriculture
- modern technologies and equipment for recycling of agricultural products

Invited for participation: representatives of manufacturers of agricultural products, food industry, state authorities, state supervision (control) bodies, international and domestic suppliers of equipment and technologies for processing of agricultural products

Session 4. Construction and cement industries

Topics:
- potential and prospects for waste management of the cement industry
- construction waste recycling - the task of the state or the public?
- modern machinery, equipment and technologies for construction waste recycling

Invited for participation: representatives of the cement industry, construction companies, waste producers, state authorities, state supervision (control) bodies, international and domestic suppliers of machinery, equipment and technologies for construction waste recycling

WORKSHOP

“How to establish an effective MSW treatment system in your community and coordinate it with regional waste management plans”

Zone of parallel events, 2 floor

Organizer: Representation of ISWA Young Professionals Group in Ukraine

Topics to be discussed:
- What documents should an united territorial community and municipality have to ensure an effective MSW management system and how to develop these documents
- Tariffs and agreements with service consumers
- Technologies. Caution when choosing technology solutions
- Overview of successful practices in Ukraine and ways to implement them, successful projects and projects of intermunicipal cooperation (IMS)
- Information company. How to organize proper work with the population
- What to do with existing landfills. Priority actions
- Fines. Accountability mechanisms
- Where to find funding and how to get it?

Invited for participation: Representatives of united territorial communities, municipal authorities, regional state administrations
9 OCTOBER, WEDNESDAY

MAIN PROGRAM
Conference room, 1 floor

Session 4. Waste management: international experience, current state of market segments and prospects for their development in Ukraine

Session 5. Investment needs and financing of waste management projects in Ukrainian regions

CONFERENCE
“RECYCLING OF SECONDARY RAW MATERIALS”
Conference topics:
• Ukrainian secondary waste recycling markets - opportunities and reality
• Prospects for the use of recycled materials in subsequent production
• Modern technologies and equipment for secondary raw materials’ recycling

Session 1. Polymers
Session 2. Waste paper
Session 3. Cullet
Session 4. Tires and rubber goods

PARALLEL EVENTS
Zone of parallel events, 1 floor

CONFERENCE
“COLLECTION AND DISPOSAL OF HAZARDOUS WASTE”
Session 1. Management of hazardous waste, WEEE and batteries
Session 2. Medical waste management
Session 3. Radioactive waste management

NEW IN 2019!
Seminar “Introduction of new waste management technologies in Dnipropetrovsk region”
Organizer: Dnipropetrovsk Regional State Administration, Department of Ecology

Seminar “Environmental activities of Kyiv region. Projects, resources, effect”
Organizer: Kyiv Regional State Administration, Department of Ecology

Test drive & demonstration of waste management machinery and equipment
- Test drive & demonstration
- Presentation of advantages
- Questions & answers

Simultaneous translation will be provided during working session: Ukrainian / English / Russian languages

INVITED FOR PARTICIPATION:
• international and domestic suppliers of equipment, machinery and integrated waste management solutions
• MSW market operators, management and municipal utilities for waste collection, transportation, sorting, storage and disposal
• landfill operators
• industrial enterprises: Mining & metallurgical and fuel & energy sectors, ferrous and nonferrous scrap metal market enterprises, hazardous waste producers, medical institutions and hospitals, construction and cement industry, transport, ports, Ukrzaliznytsia - Ukrainian railways, agriculture, animal husbandry, food industry
• secondary raw materials’ recyclers: polymers, glass, waste paper, tires
• retail and shopping networks, consumer packaged goods manufacturers
• construction, design, engineering, consulting companies, law firms
• ministries, committees of the Verkhovna Rada, state supervision (control) bodies
• state and municipal authorities, territorial communities, societies of co-owners of apartment buildings (OSBB)
• banks, investment companies, financial institutions
• diplomatic missions
• scientific and educational institutions, public organizations
Waste Management 2019
8-9 October
Kyiv, Ukraine, ACCO International

ORGANIZER
Business-Forum Ltd specializes in organisation and conducting of international and regional conferences and exhibitions since 2003.

Industries we cover:
- metallurgy,
- mining,
- transportation and logistics,
- chemical, ecology.
