

Experts around the world

The ExperTS Programme promotes sustainable business practices around the world: In around 30 countries, experts are advising local, German and European companies on development policy issues. The programme, which is funded by the German Federal Ministry for Economic Cooperation and Development (BMZ), aims to forge closer links between foreign trade promotion and development policy. It is being implemented jointly by the Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH, the German Chambers of Commerce Abroad and Delegations of German Industry and Commerce. The experts are placed as Integrated Experts by the Centre for International Migration and Development (CIM).

Implemented by

Your partner of tomorrow's markets

ExperTS

Economy. Transfer. Sustainability.

Invest in a sustainable future

Our experts will help you to benefit from local business opportunities while simultaneously making a valuable contribution to sustainable development.

WE CAN ADVISE YOU:

- on financing and cooperation options in the context of German development cooperation
- on issues of corporate social responsibility

WE CAN SUPPORT YOU:

- in developing new markets
- in finding suitable business partners

YOU BENEFIT:

- from our national and international network and our contacts in the private sector and politics
- from our expertise in implementing local and regional projects

Experts
in around 30
developing countries
and emerging
economies

Our main areas of activity

Sustainable economic development

OUR OBJECTIVE: sustainable growth

We help to advance the sustainable development of the local economy by promoting export industry and innovation.

OUR ACTIVITIES:

- Establishing links with local partners from the spheres of business and politics
- Supporting marketing activities
- Promoting cooperation with academic and research communities
- Advising on CSR activities and the National Action Plan for Business and Human Rights

Energy and environment

OUR OBJECTIVE: climate protection

We support climate change mitigation and protection of the environment through technology and knowledge transfer.

OUR ACTIVITIES:

- Setting up centres of expertise to provide expert advice and support
- Training and promotion of local experts
- Helping companies to establish business contacts through fact-finding missions for delegations and trade fairs
- Supporting pilot projects

Digitalisation and start-ups

OUR OBJECTIVE: a modern economy

We connect start-ups and their digital innovations with partners from the private and public sector.

OUR ACTIVITIES:

- Setting-up a database with contacts for start-ups and investors for matching purposes
- Forging cooperation between start-ups, the private and the public sector
- Building accelerators for West African start-ups
- Establishing information and advisory platforms

Vocational education and training

OUR OBJECTIVE: qualified workforce

We develop solutions for vocational education and training of skilled personnel in cooperation with the private sector.

OUR ACTIVITIES:

- Developing, adapting and implementing certified dual vocational training courses together with the industry
- Promoting a dual system of higher education
- Developing vocational courses as further education for trainers within the company, e.g. Train the Trainer
- Advising on reforms in the field of vocational training
